Ultimate Vahki!

BIONICLE

When there's a danger too great for any Vahki squad to meet, Metru Nui relies on two ultimate Vahki machines for protection. But should these mechanical enforcers turn and betray the city, what power could stand against them?

Kranua

An extremely specialized Vahki model, the Kranua is called into action less often than the Kraahu. Powerful and bulky, the Kranua is capable of transforming its body into animated grains of protodermis. It can then flow through narrow cracks or vanish into the pavement, before reforming someplace else. This makes the Kranua highly effective at pursuing law-breakers into tiny spaces or confusing rampaging Rahi with its sudden disappearances and reappearances.

Build Kranua with the elements and instructions inside these three Vahki sets:

Nuurakh 8614 Vorzakh 8616 Rorzakh 8618

Kraahu

Unlike the Vahki, who have a central mechanism governing their intelligence, the Kraahu's knowledge centers are scattered throughout its body. The advantage of this? The Kraahu can actually split apart and send its individual pieces to act independently. This allows it to challenge multiple foes by sending all six legs off in six different directions, while its other components monitor the area and defend against attacks. As a single unit, the Kraahu is capable of sending out clouds of stun gas. Kraahu parts give off a powerful electrical charge when touched.

Build Kraahu with the elements and instructions inside these three Vahki sets:

Bardakh 8615 Zadakh 8617 Keerakh 8619

I saw **BIONICLE: The Mask of Light** and it was awesome! I'm a big fan and I was wondering if they are making another movie.
Jerrod, 11

They sure are, Jerrod. Look for **BIONICLE 2: Legends of Metru Nui** on DVD and video this October, starring the Toa Metru, the Vahki, and other characters from the BIONICLE universe!

What does the name **LEGO** mean? Does it stand for something?
Lawrence, 9

It certainly does! LEGO comes from the Danish term "Leg Godt," which means "play well." Ole Kirk Christiansen, founder of the LEGO Company, came up with this perfect name way back in 1934, and since that time, LEGO toys have stood for just what the name says – playing well!

Do you have any brothers or sisters? What's your favorite LEGO set?
Caitlin, age 9

Yes, I have three brothers – Fredini, Eddini, and Jedini. And I think the new Alpha Team sets coming out this year are so cool, they're icy!

Knights Kingdom Challenge Card Game

CHOOSE YOUR CHAMPION!

You can play KNIGHTS' KINGDOM CHALLENGE with any cards in your deck, but for an extra challenge, choose one Knight and pit his cards against your opponent's favorite. Who will you pick to be YOUR Champion?

Make Your Own Shield!

Here's your chance to make your own Knightly shield! Using this page or a photocopy, create a design for your shield. Have an adult cut out the shield (don't forget the hole in the middle!) and glue it to a piece of heavy paper or thin cardboard. You can attach your shield to a KNIGHTS' KINGDOM figure to use in adventures and tournament challenges!

Rules

- Both players start with the same number of cards. Before playing, arrange your deck in any order you wish. Once the game starts, you can not change the order of your cards.
- Hold your cards with the SHIELD side facing your opponent. It's time for a JOUST! Call out the Joust symbol (SWORD, HELMET, SHIELD or HEART OF THE MAGICAL SHIELD) that appears at the top of the picture on the card. The player with the strongest symbol becomes the CHALLENGER, the other player is the DEFENDER. If both players have the same symbol, move those cards to the back of your decks and Joust again.

Joust Symbol Power Rankings:

- The CHALLENGER places their card down with the SHIELD side facing UP and says which SKILL they are using to Challenge: SPEED (Blue Hawk), STRENGTH (Red Bear), AGILITY (Green Monkey) or WISDOM (Purple Wolf).
- The DEFENDER places their card on top of the Challenger's card with the SHIELD side facing DOWN so that the POWER NUMBERS line up on the right side. The player with the highest POWER NUMBER in the Challenger's SKILL wins that challenge! If the numbers are the same, then both players return their cards to the back of their decks.
- If you win a Challenge, return your winning card to the back of your deck. Should you lose a challenge, you must put your card to the side. It cannot be used again in the current game.
- The game can last a set number of rounds or until one player has no more cards left. The player with the most cards left at the end of the game is the winner of the KNIGHTS' KINGDOM CHALLENGE!

Tundra Tracker

ALPHA TEAM VEHICLE CODE: 4744

MAX. SPEED: 450 mph/724 kmh

GEAR: Magma powered drill; all-terrain permafrost tires; ice orb detector; radar; twin solar lasers; NW-1 magma engine

WANTED! THE SNOW CRAULER

ALPHA TEAM ENEMY ID CODE: 4745

We don't know much about them, other than that they have been spotted all over the world planting ice orbs. Bring one in intact and you'll be an Alpha Team hero.
